Subj: Completed Reclamation at the Des Bee Dove Mine Sedimentation Pond, PacifiCorp, Des Bee Dove Mine, C/015/0017

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company (Energy West), hereby gives notice that final reclamation has been completed at the Des Bee Dove Mine sedimentation pond and access road. All structures have been dismantled and hauled off-site. Backfilling and grading procedures have been completed and the area has been restored to its approximate original contour. The ephemeral drainage system has been reconstructed in its original location and allows free unobstructed flow of storm water runoff. All work has been completed according to the approved reclamation plan.

You are invited to conduct the required inspection of the site to ensure the work complies with the R645 Coal Regulations. Please contact me so that I can accompany the inspection team at (435) 687-4720 or Dennis Oakley at (435) 687-4825.

Sincerely,

*Dennis Oakley*
